

Your buyers already told
you **which creators to
book.**

Most founders never look. Here's how.

Most AI brands pick creators **by gut.**

Biggest channel. Loudest name. Then hope.

Guessing is the most expensive way to start.

A Creator Pipeline Map.

One page. Built for one company. Five sections.

Buyer

Platforms

Creators

Fit

History

Who's **actually** buying.

Buyer profile

Example

Role	Staff engineer
Team size	20 to 200 devs
Stack	TypeScript, Postgres, AWS
Trying to fix	Slow code review

Plain words. No personas.

Not where ads run. **Where they pay attention.**

● YouTube

● LinkedIn

● X

● Newsletters

● Podcasts

Ranked by where your buyer spends real time.

5 to 10 creators who fit. Named.

Shortlist

Example

A Code review deep dives

● Strong fit

B Weekly dev-tool tests

● Strong fit

C Backend tutorials

● Good fit

D Engineering leadership

● Good fit

Three checks. Every creator.

1 Audience matches your buyer ✓

2 Topic matches your product ✓

3 They use tools for real, on camera ✓

Fail one, they're off the map.

Who **already sponsors** them.

1 Brands like yours

2 Your competitors

3 Creators proven in your category

Proven in your category before you spend a dollar.

THE TAKEAWAY

Stop guessing.
Start with the map.
