

for ai founders

AI is quoting LinkedIn posts to build your buyer's shortlist.

Here's who it quotes. Swipe.

the stakes

94%

**of B2B buyers use AI tools
while they buy.**

9.5 million ai citations · 16 b2b categories

#2

LinkedIn is the second most-cited source in AI answers.

Only YouTube beats it.

who gets quoted

People beat company pages. Three to one.

Individual profiles

~75%

Company pages

~25%

Your page is the shop window. Your people are the citations.

follower count

51%

**of LinkedIn citations came
from members with under
10K followers.**

AI models “prioritize clarity, expertise, and usefulness over popularity alone.”

Meltwater, 2026

From your post to their shortlist.

1 You answer one real question, clearly

2 Your buyer asks AI which tool to use

3 AI pulls clear, expert sources

4 Your post gets quoted in the answer

5 You make the shortlist

Write like the source.

→ Answer one clear question in the first lines

→ Use specific numbers and named examples

→ Write from real work, not opinions about opinions

→ Stay on one topic until you become the source

**Your company page
is the shop window.
Your people are the
citations.**
